Amit Ghosh

Full Stack Web Developer |DBA |

Software Management and Support |

Executive-IT/IFS

Having keen interest in both full stack web development and software implementation and managment I wish to build my career on building websites which incorporate both implementation and data analysis

EXPERIENCE

LAL TEER SEEDS Limited, sister concern of MULTIMOOD GROUP Anchor Tower, Bangla Motor, Dhaka

— Executive- IT/IFS

Aug,2023 - Present

As an IT/IFS Specialist, I manage Oracle databases, ensuring data integrity and optimal performance. I design and develop interactive reports using Power BI, transforming complex data into actionable insights. I administer the Sokrio distribution software, streamlining supply chain processes and integrating with other systems. I provide technical support and training to users, enhancing their proficiency with IT tools. Additionally, I develop web applications using Oracle APEX, meeting organizational needs and improving productivity. My efforts have led to a 30% increase in database query efficiency and a 25% rise in user satisfaction.

FAKIR Apparels Limited, Narayanganj, Dhaka

— Executive- ICT, ERP n BIMS

June,2023 – **July,31**

My responsibilities encompass the provision of ERP support, the development and maintenance of the official website of Fakir Apparels Ltd, the creation of an in-house job portal, R&D portals and software ,and my current task involves the development of a cross-platform mobile application for RFID based data management using Flutter. This application is intended to facilitate the tracking of fabric production and defects to enhance the efficiency of our production process.
